3.2.3 QUESTIONS WITHOUT NOTICE FROM THE PUBLIC

CHRISTOPHER MILLS – 52 CAROLINE STREET, EAST DEVONPORT

Land at 54 Caroline Street

Q1 An internal "*Landscaping Plan*" was prepared by the Coordinator of Parks & Reserves on 23 December 2019. Council was aware that a row of mature trees were stabilizing the landslip zone. All these trees were cut down on 5 November and replaced by four garden beds of ornamental shrubs. *Banksia, acacia and protea*.

However, are the elected members aware that there are at least 173 Australian species of Banksia, 1,000 species of Acacia and 800 species of Protea. Exactly how many and of what variety and species of each of these shrubs have recently been planted?

Q2 The Infrastructure & Works department has 33 employees (at June 2019). Is there a single staff member who has a University accredited qualification in Arboriculture?

Response

The General Manager advised that the trees that were planted included:

- 7 Banksia Serrata
- 20 Australian Blackwoods (Acacia Melanoxylon)
- 23 Correas (Reflexa species)

In regard to question two, numerous staff in Council's Parks and Reserves Team have trade-based qualifications in arboriculture. These are not university accredited qualifications.

TIM MCGEE – 63 PARKER STREET, DEVONPORT

Q1 I was at the 2019 AGM and would like to ask the following question of the Mayor. Mayor, do you still maintain the 2019 AGM was "getting a bit out of control" when you closed it?

Q2 If you, Mayor, maintain your statement "that the meeting was getting a bit out of control" then who or what was causing the meeting to be getting a bit out of control?

Q3 Who was the person ultimately responsible for, the planning and giving of advice to you Mayor about the procedural and legislative requirements of the 2019 AGM?

Response

The Mayor's response was that meeting procedures relating to the 2019 AGM have been the subject of a code of conduct complaint. The determination report is listed as an item on tonight's agenda and I do not intend to make any further comment on the matter.

DOUGLAS JANNEY – 23 WATKINSON STREET, DEVONPORT

Wright Street Illegal Parking

The previous two raisings of this matter in March and July of the illegal parking on Wright Street resulted in the answers that nothing would happen.

When the Finnish shipyard was going to build the ferries the first vessel was to be handed over in late 2022 and the second in late 2023.

Since then there has been more information in the media. I refer to the article in the Advocate on the 8th August which stated "Last month's announcement (Finnish shipyard not got a contract) blew this timeline out of the water, with the Government statement that it remains "committed to building two ships within our 2028 timeframe" having little credibility.

The Council is the responsible organization for the road.

The foregoing being so then the Council can be "Do nothing at the lazy acre OR Do something at the Living City" NOW even if this is temporary. Waiting for the ferries to come and then decide does not serve the community in the meantime.

Q1 So what is the Council going to do taking the foregoing into account?

Response

The General Manager advised that Council is currently progressing the State Vehicle Entry Point project, in East Devonport. The project is intended to address vehicle access and

gress to the Port area, including addressing routing and the capacity of the road network to accommodate both light vehicles and heavy freight movements.

The project is proposed to progress independently of the procurement process for the replacement Spirit of Tasmania ferries.

BOB VELLACOTT – 11 COCKER PLACE, DEVONPORT

Q1 In light of the Code of Conduct Panel's findings that "*The panel finds that the Mayor's admission that she decided to close the meeting because she considered that the AGM was being used as an opportunity to embarrass her personally....*" and "*...that it is likely that the Mayor was uncomfortable with the questions being put to her...*": **was this the main reason at the council meeting in August 2018, chaired by you at that time as Acting Mayor, which declared Mr Gardam and Mr Vellacott "difficult customers" also to restrict questioning of Council that may prove embarrassing?**

Response

The Mayor advised, I am not going to try to make assumptions about what the reasoning was around the those Councillors at that time in 2018 making the decisions that they made.

Q2 Pigeons - Further to my questions asked and information provided at the July 2020 meeting, it is evident from personal observations and information given to me by concerned ratepayers; pigeons are now in near plaque proportions in the CBD and around the city.

Please inform what action has Council taken, if any, since this obnoxious problem was brought to your notice in particular to:-

- a) Council properties ie the paranable arts centre and the main paranable centre buildings?
- b) ensuring property owners especially those in the CBD are complying with Council health regulations or recommendations to eliminate the obnoxious pests?

Q3 Will Council assure staff and the general public, who work in and or visit the paranable centre and paranable arts centre, that - among other things, the intakes for the air-conditioning systems comply in all respects to OH&S requirements in as much that they are not being fouled up with pigeon dung and other noxious matter?

Response

The General Manager advised that a copy of a detailed Council report relating to feral pigeons was provided to Mr Vellacott in response to his pigeon questions at the last Council meeting.

As outlined in that report, the evidence suggests that eliminating food sources is the most effective method of controlling pigeon numbers and Council Officers continue to provide advice and education where necessary to CBD property owners.

Council is comfortable that the air conditioning and ventilation systems in the paranable centre and paranable arts centre are compliant with the appropriate Work Health & Safety standards.

MALCOLM GARDAM – 4 BEAUMONT DRIVE, MIANDETTA

Q1 The Code of Conduct findings included that "*The Panel considers that the conduct of the AGM may have been badly planned from the outset,.....*"; accordingly, was the person responsible for planning the meeting and giving advice the same person as the author of the report to Council recommending the Providore Place head lease?

Q2 In light of the Code of Conduct Panel's findings as to events happening at the end of the meeting, will Council instruct the General Manager to amend the incorrect draft minutes to accurately reflect the following:

- a) Amend the false statement that *"There being no further business the Mayor declared the meeting closed at 6:24pm"* to an accurate description of what transpired; that is, *"notwithstanding there was further business to be dealt with, the Mayor without authority and to avoid possible embarrassment declared the meeting was closed"*?
- b) Based on the Panel's finding *"that Cr Rockliff was aware of the correct procedure for dealing with a procedural motion, such as was called as the meeting was being closed"* and that a procedural motion is classified as *"new business"* the draft minutes be amended to include an accurate description that Mr Vellacott had attempted to raise a procedural motion that the Mayor declined to hear and instead closed the meeting without authority to do so? (Note: Meeting protocol requires that a procedural motion should be recorded in the minutes whether subsequently passed or lost)

Response

The Mayor stated as previously advised I do not intend to make any further comment or take any further action on the matter. The 2019 AGM draft minutes will be tabled at the 2020 AGM.

Q3 While I applaud Council's initiative to read questions without notice from those choosing to not attend it has also decreed that members of the public gallery in attendance are not permitted to speak, assuming because of COVID-19; accordingly, will the Mayor please explain why members of the public would pose any greater risk than Councillors or staff speaking if Council adopted simple accepted practices of sanitising and disinfectant wipes in addition to social distancing to ensure any transmission was minimised at the lectern, such as masking or sanitising of the microphone?

Response

The General Manager advised that the current procedures are considered an appropriate balance, allowing public participation in the meetings whilst ensuring COVID safe practices are adopted to minimise risk and meet WH&S requirements.

JENNIE CLAIRE – DEVONPORT – 57 GUNN STREET, DEVONPORT

Q1 Mayor, due to the ruling of the Code of Conduct Panel, you have acknowledged your mistake in abruptly shutting down last year's AGM and you are due to apologise for that tonight. However, an apology alone does not give the redress needed. An apology does not fix the problem that the AGM, which is an important meeting that takes place only once a year, was cut short. An apology alone does not restore the correct democratic process for ratepayers.

So, Mayor, will you undertake to fix your mistake by reconvening the 2019 AGM at an upcoming Council meeting and finishing that meeting according to correct procedure?

Response

The Mayor responded as previously advised I do not intend to make any further comment or take any further action on the matter.

Q2 Recent General Manager's reports show that Mr Atkins has had a number of meetings with the developer of the Devonport Showground, Mr Simon Want. Could the General Manager give the community an update on the content of these meetings especially

in regard to the possibility of any ratepayer funded Council involvement in any aspect of the development?

Response

The General Manager advised that the meetings with Mr Want have primarily been to gain an understanding of the proposed residential development of the showgrounds site, and to get an understanding of the community engagement process they have put in place and also to work through the statutory planning obligations.

Q3 From emails and questions we can now be certain that our Council did not engage in any environmental assessment of the Friend Street development for 27 house lots in the first section which later will be added to and will be 76 house lots and 2 commercial lots in total. We also know that this large development was passed by the General Manager with authority delegated to him under Covid-19 'state of emergency' powers.

Mayor, do you and your Councillors believe that it is acceptable for a development on native bushland, with potentially endangered species present, be granted permits by an unelected officer of the Council with no environmental assessment?

Response

The Mayor responded, I am comfortable the approval was in accordance with the Devonport Interim Planning Scheme and environmental processes.

GRAEME NEVIN – 145 PERCY STREET, DEVONPORT

Q1 Does council agree with the Mayor's evidence/description to the Code of Conduct Panel that the 2019 AGM was "getting a bit out of control" when the meeting was closed?

Q2 If Council does agree with the Mayor's description, who or what was causing the meeting to get a bit out of control?

Q3 Given that some electors were wrongfully deprived of an opportunity to speak at the 2019 AGM, how will Council rectify this, that is to say how will Council fix the mistake?

Response

The Mayor stated, as previously advised I do not intend to make any further comment or take any further action on the matter.

RODNEY RUSSELL – 225 STEELE STREET, DEVONPORT

Q1 Agenda Item 3.4.1: If Council decides to remove the four parking spaces in Best Street would you also consider removing the curb directing traffic into the multi storey carpark for the same reasons?

Response

The General Manager advised that the lane separation forming the dedicated access lane into the multi-storey car park is designed to prohibit access to the car park from Edward street, and from the westbound lane of Best Street. Access to the car park in either of these circumstances would pose safety and congestion issues for the road network in this area. Removal of the traffic island does not form part of the Notice of Motion being presented to Council for consideration later tonight.

Q2 Agenda Item 5.8: Energy Efficiency. What off set in electricity do the solar panels on the Lawrence Drive storage facility provide Council?

Response

The General Manager responded that it is estimated that during the 19/20 financial year the Lawrence Drive system generated 28,500 kWh of power over the year.

Q3 Agenda Item 6.4: 7: Replace roller-doors at Surf Club. Will the new roller-doors rust as the first did or will the new doors be more rust resistant?

Response

The General Manager advised that the roller doors have been replaced due to operational issues with the manual chain wind mechanisms and rusting of some components. The doors have been replaced with powder-coated steel hardware and an automatic door opener. Regular maintenance will occur to enhance the life of the doors in this highly corrosive coastal environment.
