About the Memorial Park

Located in Quoiba, Devonport, the Mersey Vale Memorial Park is a non-denominational cemetery serving the Devonport region.

The Memorial Park was established and funded under a 40-year agreement between the Devonport, Kentish and Latrobe municipalities in 1968, with Devonport City Council responsible for the operation and administration of the Memorial Park under the agreement.

The Park was created on land purchased from the estate of William Henry Constable. At the conclusion of the 40-year agreement, Devonport City Council became the sole owner of the Cemetery.

The Mersey Vale Memorial Park offers burial lawns and ash interment options in a peaceful and tranquil setting adjacent to bushland.

There are four main areas within the Park - the Lawn Cemetery, Niche Wall, Garden Wall and Memorial Garden.

Bookings are no longer being taken for the Niche Wall with the spaces already full.

For further information on how Council is planning for the future of the Memorial Park, please refer to the Mersey Vale Memorial Park Master Plan, copies of which can be obtained from Council.

The Lawn Cemetery

The Lawn Cemetery has a number of burial and ash interment areas. Please contact a local funeral provider to make enquiries regarding interment options and availability.

Family members are responsible for attending to the maintenance of plaques and surrounds, whilst Council maintains the overall grounds.

The Memorial Garden

Established in 2015, the Mersey Vale Memorial Garden is a heart shaped memorial garden featuring stunning maple trees and landscaped gardens, memorial obelisk sculptures, a reflection pool and quiet seating areas.

Ash interment and memorial plaque options are available within the Memorial Garden.

Please contact a local funeral provider to make enquiries regarding the various options and availability.
